REPORT.

THE Controllers of the Public Schools present their Thirty-ninth Annual Report.

The whole number of schools under their care, on the 31st of December, 1857, was 306; namely, 1 High School, 1 Normal School, 55 Grammar Schools, 47 Secondary Schools, 157 Primary Schools, and 45 Unclassified Schools.

The whole number of teachers was 955, of whom 78 were males, and 877 females.

The whole number of scholars was 57,521, of whom 29,650 were boys, and 27,871 were girls.

These statements show, during the past year, an increase of 2 schools, 15 teachers, and no less than 2,422 scholars.

This result is the more gratifying and unexpected, as there has been no increase of accommodation in the shape of new school houses, and especially as many thousands of scholars, during the last few years, have been withdrawn from the public schools, and placed in the parochial schools attached to churches of the city. So great and general is the favor with which the public schools are regarded, that the number attending them would be immediately swelled by an increase of many thousands were there sufficient and suitable school house accommodations. Even with the present accommodations, no less than 3,369 children are reported as now waiting for admission. It is next to impossible to rent buildings suitable for the purposes of a

public school. Many of those so occupied now, are badly warmed, badly lighted, badly ventilated, in damp, cheerless basements, or dangerous upper stories, where the physical energies of the children are impaired by constant exposure in a vitiated atmosphere, or their lives put in jeopardy by the danger of sudden panics. The most imperative want of the public schools at this time is an increase of school houses. The Controllers do not ask, nor advise, in the present condition of the city finances, any sudden and large increase of accommodations, however desirable it might be in itself. But a moderate addition every year of one or two school houses, judiciously located, would gradually supply the pressing want. Unless some such seasonable provision is made, the necessity and the demand for it will continue to grow, until they can no longer be resisted, and then the public, under some temporary excitement, will be incautiously hurried, as they have been in other cities, into wholesale and wasteful expenditure.

If the appropriation received from the State, amounting to about $40,000 annually, were specifically set apart to the building of new school houses, it would be just about what is imperatively required.

The gross expenditures in the year 1857 were $484,625 25. A comparison of the past year with 1855 and 1856, under the different heads of expenditure, gives the following results:

	1855.		1856.		1857.

New School Houses,	19,828	67	.....		3,500	00
Totals,	520,786	22	456,089	14	484,625	25

The permanent expenses for 1857 were as follows:

New School Houses, - - - - - -	$3,500 00
Additions and Repairs, - - - - - -	21,329 85
Furniture, - - - - - - - -	5,678 01
Furnaces and Stoves, - - - - - -	10,712 34
	$41,220 20
Aggregate amount previously expended for these purposes, - - - - - - - -	1,261,602 21
Total, - - - - - - - -	$1,302,822 41

This total represents the entire permanent investment of the city in school houses, lots and furniture. The interest on this sum, at 5 per cent., would be $65,141 12. This may be considered as the rent at which the public schools in 1857 had the use of the school houses owned by the city. If to this we add the other rents actually paid, we have the entire amount justly chargeable under this general head:

Interest on permanent investment, - - -	$65,141 12
Other rents, - - - - - - - -	30,563 18
Total annual rent, - - - - -	$95,704 30

This sum, divided by 57,521 (the whole number of pupils), gives $1 66 as the annual expense per pupil for rent of school houses.

The rates of expense for other items were as follows:

Tuition, (Salaries of Teachers),		$296,803 84, per pupil	$5 16
Books and Stationery, - -		42,804 04, "	74
Incidentals—			
Fuel, - - -	$17,523 61

		57,034 19 per pupil	99
Rent, - - - - - - - - - -			1 66
Total annual expense per pupil, (including all the schools),			$8 55

The rates of expense in the different classes of schools, omitting the item of rent, were as follows:

GRAMMAR, SECONDARY, PRIMARY AND UNCLASSIFIED SCHOOLS.

Tuition,	$274,121 84,	pupils 56,546,	rate per pupil	$4 85
Books and Stationery,	41,416 02,	"	"	73
Incidentals,	54,786 40,	"	"	97
			Total,	$6 55

NORMAL SCHOOL.

The gross expenses of the Normal School have been, for salaries $5,700, for books and stationery $710 24, and for incidentals $865 10. Deducting from these sums what the 244 children in the School of Practice would have cost, if taught in the other schools, say for tuition $1,183 40, books and stationery $178 12, incidentals $236 68, we find the rate justly chargeable to the Normal pupils, as follows:

Tuition,	$4,516 60,	Normal pupils 197,	rate per pupil	$22 92
Books and Stationery,	532 12,	"	"	2 70
Incidentals,	628 42,	"	"	3 18
			Total,	$28 80

HIGH SCHOOL.

Tuition,	$16,982 00,	pupils 534,	rate per pupil	$31 80
Books & Stationery,	677 78,	"	"	1 27
Incidentals,	1,382 69,	"	"	2 59
			Total,	$35 66

A comparison of the rates of expense for the last three years gives the following results:

1. *Annual expense per pupil for all the schools.*

	1855.	1856.	1857.
Tuition,	$5 37	$5 52	$5 16
Books and Stationery,	94	64	74
Incidentals,	1 26	97	99
	$7 57	$7 13	$6 89

2. *Annual expense per pupil for Grammar, Secondary, Primary and Unclassified Schools.*

	1855.	1856.	1857.
Tuition,	$5 01	$5 17	$4 85
Books and Stationery,	92	63	73
Incidentals,	1 23	95	97
	$7 16	$6 75	$6 55

3. *Annual expense per pupil in the Normal School.*

	1855.	1856.	1857.
Tuition,	$17 99	$21 13	$22 92
Books and Stationery,	2 71	1 56	2 70
Incidentals,	2 74	4 09	3 18
	$23 44	$26 78	$28 80

4. *Annual expense per pupil in the High School.*

	1855.	1856.	1857.
Tuition,	$32 92	$30 31	$31 80
Books and Stationery,	1 30	82	1 27
Incidentals,	3 50	1 86	2 59
	$37 72	$32 99	$35 66

The Controllers take great pleasure in spreading these results thus minutely before their fellow citizens. The aggregate amount expended for the schools is confessedly large. But the corresponding benefit is proportionably large. Nearly SIXTY THOUSAND children are in daily attendance upon the schools. In these schools the pupils are, according to the general estimate, better taught, better disciplined, and under better moral influences than in private schools of corresponding rank. Yet so economically is the system administered, and to so good advantage is the principle of classification and division of labor applied, that the sum total of a child's expense, for a series of years, averages less than nine dollars a quarter in the High School, less than eight dollars a quarter in the Normal School, and only a little more than a dollar and a half a quarter in the other schools,—a rate of cost less, in some cases, than that for books alone, in schools under private management. It is not impossible, that in the disbursement of nearly half a million of dollars annually, instances may occur of the misapplication of the public funds. Yet surely the cases of abuse must be rare and trivial, when the records exhibit on a large scale, and for a length of time, economical results like those quoted above, in connection, too, with a state of efficiency in the instruction and discipline of the schools, that challenges the admiration of all who visit them.

By order of the Board,

WILLIAM J. REED,
President.

NUMBER V.

REPORT

OF

JOHN S. HART, LL. D.

PRINCIPAL OF THE HIGH SCHOOL,

FOR THE 38th AND 39th TERMS,

Ending July 16th, 1857, and February 11th, 1858.

REPORT.

To Richard R. Montgomery, Washington J. Jackson, John Conry, Charles Frishmuth, and Charles J. Wister, Esquires, Committee on the High School.

CENTRAL HIGH SCHOOL,
February 12*th*, 1858.

GENTLEMEN:

In conformity with the regulations of the school, I submit the following Annual Report. It includes the thirty-eighth and thirty-ninth terms, ending respectively on the 16th of July, 1857, and the 11th of February, 1858.

In the early part of the year, the school was threatened with a serious interruption, from a defect in the construction of the building. The partition walls over the large lecture room were originally supported by wooden truss-girders, built in the walls themselves. Through some defect of the builder or of the architect, the walls were gradually giving way, and fears were entertained of a general crash, the floors having already sunk in the middle about five inches. It became necessary, therefore, to restore the floors and walls to their former level, and to support

them by iron columns. This was done in the summer vacation, at an expense of $500.

No changes have taken place during the past year in the course of study, or in the order of exercises. The results of the year, as shown by the term averages and other distinctions awarded to successful scholarship, are of a most gratifying kind. A careful examination of these results, which are given with great minuteness of detail in the lists at the close of this report, has confirmed the general impression I had already formed, that we have rarely, if ever, passed a year of more successful study. There have been exceptions, of course; but, as a general thing, our students have yielded a cheerful obedience to the regulations of the school and the authority of the Professors, and have shown a sincere and hearty interest in the studies of their several classes. As a consequence, I have the gratification of reporting an unusual proportion of the whole number, in the lists of distinguished and meritorious. I have also specially to report a growing improvement in the important branch of elocution. The unusual proficiency of the students in this department was a subject of general remark among those who attended our Commencements and the public exercises in declamation and composition at the school.

As a gratifying and unmistakable evidence of the interest which our pupils take in their studies, I would adduce the extraordinary regularity of their attendance—a regularity, so far as I can learn, unparalleled in the history of schools, or of institutions of learning of any name. It is my custom every day to make a careful register of the number of students belonging to the school, and of the number absent from whatever cause. At the end of every four weeks the results are averaged and recorded. The following table shows these monthly results of the attendance rolls for the last year. From an inspection of this table it will be seen, that the average number belonging to the school during the year has been 491. The average daily number of absentees out of all this number has been only a little more

than seven, (7.23), and the average rate of absenteeism, less than one and a half per cent., (1.47). In estimating the significance of these facts, it should be borne in mind, that many of our students have long distances to walk in coming to school, the average distance being more than a mile and a half; and that in so large a number, there must necessarily be many cases of sickness, deaths in the family, and other unavoidable causes of absence. It is indeed a very rare thing, so rare as to occasion remark, that a boy is absent from any cause not of the most imperative necessity. Such, indeed, is the desire of the students to be present at all the exercises of their class, that not unfrequently they attend when their health is really not such as to warrant it, and in not a few instances I have been obliged to advise and even direct students to remain at home, when I found them continuing in school to the manifest injury of their health.

Attendance Averages for the year ending February 11th, 1858.

The examinations for admission show that the Grammar Schools, generally, are in a healthy and constantly improving condition. Our students never came to us in a better state of preparation than at the present time. This is evident from the

gradual increase in the admission average, which, for the last four terms, has been as follows:

July,	1856,	Admission average,		55.4.
February,	1857,	"	"	60.
July,	1857,	"	"	60.7.
February,	1858,	"	"	66.

It is very obvious from these figures that it will soon become necessary to introduce into the Grammar Schools some new branches of study as requirements for admission to the High School. Such an enlargement of the studies of the Grammar Schools has long been desired. There are many branches which could be studied there, quite as well as in the High School, and with advantage to a much larger number of scholars. Among the branches that may be mentioned in this connection, as eminently desirable to boys of every class, and capable of being taught without expensive apparatus, are the elements of Mechanics, Drawing, and Book-keeping. The pupils of the Grammar Schools might also with advantage be required to study more of Algebra and Mensuration than they now do. The examination average, it is true, might be kept down by making the questions on the subjects now studied more difficult. But these questions, in my opinion, are hard enough now. They comprehend as many of the difficulties of these branches as ought to be required of boys thirteen or fourteen years old. It would seem to be a wiser use of their time, to extend gradually the range of their studies, than to require of them an endless iteration round the circle of Grammar, Geography, and Arithmetic, with a view to the attainment of some imaginary point of excellence.

Of the 550 students who attended school during the 38th term, 112 were declared Meritorious, and 94 Distinguished: 72 left, having remained in the school less than two years; 54 received Testimonials of having completed two years or more of the course, but less than four; and 32, having completed the full four years' course, were admitted to the degree of Bachelor of Arts. The

degree of Master of Arts was also conferred upon 10 graduates of the four years' course, of not less than five years' standing.

The Commencement was held at Jayne's Hall, on the 16th of July, 1857. The Honorary address was delivered by John G. Johnson; the Salutatory by Henry S. L. Rex, and the Valedictory by J. Shipley Newlin. Other addresses were made by William H. Williams, Edward I. Galvin, Henry Odiorne, Benjamin P. Adams, Henry P. Hay, Joshua S. Garsed, William H. Samuel, Joseph L. Berg, Samuel Spackman, Robert D. Coxe, Bernard Mercer, Charles W. Alexander, and Joseph W. Sanderson.

Of the 517 students who attended school during the 39th term, 105 were declared Meritorious, and 87 Distinguished; 40 left, having remained in the school less than two years; 33 received Testimonials of having completed two years or more of the course, but less than four; and 19, having completed the full four years' course, were admitted to the degree of Bachelor of Arts. The degree of Master of Arts was conferred upon 11 graduates of the four years' course, of not less than five years' standing.

The Commencement was held in Jayne's Hall, on the 11th of February, 1858. The Honorary address was delivered by Stephen W. White; the Salutatory by Ignatius F. Horstmann, and the Valedictory by Lucius M. S. Haynes. Other speeches were made by John F. McDevitt, Matthew Neely, George W. Wannemacher, J. Campbell Harris, Robert J. Mercer, Jones Wister, James R. Booth, Neal F. Campbell, and Edwin C. Bullard.

Since the last annual report, 244 students have been admitted on examination, namely; 124 in July 1857, and 120 in February 1858. This makes the whole number admitted up to the present time 3,971.

During the past year, 250 students have left; namely, 158 in the 38th term, and 92 in the 39th term. Of those who left, 51 had completed the full course, 87 had completed two years or more of the course, and 112 had completed less than two years. These results are given in more detail in the following table:

A TABLE *showing the numbers that belonged to the High School at the beginning of the Thirty-eighth and Thirty-ninth Terms, the Classes to which they belonged, the Numbers that left during those Terms, or at the close, and the Classes from which they left.*

	CLASSES.	A	B	C	D	E	F	G	H	TOTAL.

From the organization of the school, October, 1838, to the present time, a period of 19½ years, the whole number who have left is 3,426. These are distributed as follows: 1,584 left before the expiration of two years of their course; 1,258 attended the school a period of two years or more, but less than four years; and 584 completed the full course. Of this last number, 194 being graduates of the full course of not less than five years' standing, have received the degree of Master of Arts. The facts are presented with more particularity in the following table:

	38th Term.	39th Term.	Previous Terms.	TOTALS.
Left before the end of two years,.....	72	40	1472	1584
Completed two years or more of the course, but less than four years,.....	54	33	1171	1258
Completed the full four years' course,	32	19	533	584
Totals,.....	158	92	3176	3426

In regard to the lists which are to follow, containing the distinctions and awards of merit, it seems proper to offer a word of explanation.

Scholarship and Conduct, in the High School, are marked with a numerical notation, of which 100 represents the maximum, and 0 a total failure. A Term Average of 100 would imply that every exercise of every kind, for five hours a day, during a term of five months, had been perfect; that in the written examination at the close of the term, every question in every department of study had been perfectly answered: that during the whole five months, the student had not been absent a day, nor a part of a day, nor been once late, even; that he had not failed in the discharge of any one school duty, nor had transgressed, even through inadvertence, a single regulation pertaining to the order or government of the institution. Such a result is obviously—perhaps I may say, intentionally—impossible. There are, however, as may be seen from an inspection of the lists of the distinguished, many approximations to this ideal point, of which any one might be justly proud.

The Term Averages determine all questions of promotion and of rank in the several classes. A term average of not less than 60, (in some classes, one of 55, and even of 50,) entitles a student to be promoted into a higher class. Those in any class who receive a term average of not less than 80, are reported and published as Meritorious. Those who receive a term average of not less than 90, are reported as Distinguished, and receive a public certificate of this high honor.

The Graduating Average is given to those only who have completed the full course, and is found by combining all the several term averages of the four years. A graduating average of not less than 60, entitles a student to the degree of Bachelor of Arts, and to a public Diploma.

Public Testimonials are likewise awarded to those who have completed not less than two years of the entire course.

The First Honor in a graduating class is the Honorary Address, and is assigned to the one who obtains the highest graduating

average. The Salutatory Address is assigned to the one whose graduating average is the second in order. The Valedictory Address is a special honor, assigned, by vote of the Faculty, to the best speaker and writer.

It is very gratifying to observe the continued and wide-spread interest attending all the public exercises of the school. More than four thousand people are present regularly at our Commencements, and three times that number would be present, were there any hall of audience in the city capable of holding them. The public exercises in Declamation and Composition at the school are in like manner thronged to the utmost capacity of the room. Such a general interest in the proceedings of the school, it cannot be doubted, gives a powerful impulse to the students.

I append the customary tables, giving the Order of Exercises, and Course of Study, the Distinctions and awards of merit, the Occupations of those left and admitted, and the results of the Examinations for Admission.

Respectfully submitted,

JOHN S. HART,
Principal.

NUMBER VI.

REPORT

OF

PHILIP A. CREGAR, A. M.

PRINCIPAL OF THE NORMAL SCHOOL,

FOR THE YEAR ENDING

February 12th, 1858.

REPORT.

NORMAL SCHOOL,
Philadelphia, February 12th, 1858.

To Benjamin M. Dusenbery, Samuel Ashmead, James S. Watson, Charles M. Lukens, and Thomas W. Marchment, Esquires, Committee on the Normal School.

GENTLEMEN:—On taking charge of the Normal School I found its arrangements so wisely ordered for the accomplishment of the purposes for which it is designed, that very little change was required; and I therefore, beg leave to present the following report of its progress and condition, for the year ending, February 12th, 1858, comprising the Nineteenth and Twentieth Terms.

NUMBER OF PUPILS.

The following statement exhibits the number of pupils attending the school, at the beginning and end of each Term, and also the admissions and withdrawals since the last Report:

Attending School, February 9th, 1857, - - -	210
Graduated or discontinued at the close of, or during the Term ending July 17th, 1857, - - - -	64
Remaining, - - - - - - - - -	146
Admitted at the close of the Term, - - - -	52
Attending School, August 31st, 1857, - - -	198
Graduated, or discontinued at the close of, or during the Term, ending February 12th, 1858, - - -	47
Remaining, - - - - - - - - -	151
Admitted at the close of the Term, - - - -	57
Attending School, February 15th, 1858, - - -	208

ADMISSION OF PUPILS.

Semi-annual examinations for the admission of pupils, were held at the close of the Terms ending in July and February; and resulted in the admission of fifty-two at the former, and fifty-six at the latter examination. The qualifications required of candidates for admission being the same as heretofore, the usual mode of examination was pursued.

COURSE OF INSTRUCTION.

The course of studies and the general arrangement of the School, fully described in preceding reports, being well designed for the accomplishment of the great end of this Institution, have been suffered to remain undisturbed. All the branches constituting a good English education, are embraced in the studies of the Normal School, and pursued with direct reference to the best mode of imparting a knowledge of them to others.

Although the course of study embraces six divisions, of one Term each, the previous training of the pupil, and her ability and application, may enable her to graduate within a period of two years or less, and this frequently occurs.

SCHOOL OF PRACTICE.

This department has, during the past year, given striking evidence of its utility, as a branch of the Normal School. Experienced teachers of good judgment constantly inspect the operations of the pupil teachers, and report to the Principal, in writing, the points in which they seem to fail, and these faults are made the subject of comment, and the best means of remedying them clearly pointed out in presence of the whole school. The amount of time devoted by each pupil of the Normal School in practical teaching, appears small, yet the success of the pupils in the School of Practice gives ample proof of its efficiency.

The experience acquired in teaching four, or six weeks, under the system above described, is of more value to the teacher, than as many years might be with her own unaided observation. The teacher, feeling that her standing in the school depends as much on her success in teaching as in acquiring information, nerves herself with zeal and energy in the performance of her duties, which the scholarship of the pupils so honorably illustrates.

The excellent order of this department gives ample evidence that, the old coercive regimen for the maintenance of order, finds a worthy substitute in the presentation of the subjects of the school in an earnest and interesting manner.

Our school has sustained a very serious loss in the resignation of Miss Caroline Price, who has been the Principal of this department for the last five years; during which time the character of the school has been raised to its present proud eminence.

Miss Price takes with her, to her new post as teacher in the Cincinnati Normal School, the best wishes of all who have had the pleasure of her association while connected with the School of Practice, and their sincere regrets that the gain of others has been obtained at so great a loss to us.

Miss Marian Ash has been elected to supply the vacancy thus created, and her previous post has been filled by the promotion of Miss Anna B. Duff, to whose former position Miss Henrietta M. Thomas, a graduate of the Normal School, has been unanimously elected.

PERMANENT TEACHERS OF THE SCHOOL OF PRACTICE.

(*Girls' Grammar School.*)

Principal.

Miss Marian Ash.

Assistants.

Miss Eveline Foster, Miss Anna B. Duff,
Miss Henrietta M. Thomas.

EXAMINATIONS.

Instead of a general examination at the close of each term, a weekly written examination on one of the subjects taught in the school, is held. By this means, the pupil's progress and general knowledge in any branch of study can be closely watched, and special attention given where it may be found necessary. Another advantage from frequent examinations, is the greater accuracy with which the pupil acquires information under the expectation of having her knowledge so speedily tested. The promotions at the commencement of each term are made from the results of these examinations, and those of the daily recitations.

DISCIPLINE.

The high moral tone of the school has been sufficient, during my connection with it, not to require any other means of discipline, than an appeal to the pupils' sense of duty. This subject was so fully explained, and so clearly elucidated in the last annual report, by the acting Principal, as to make further remark entirely unnecessary.

ATTENDANCE.

So highly are the studies of each day appreciated by all the pupils, that no ordinary impediment is allowed to prevent the regular and punctual attendance of every one.

The daily exercises of the school require close application for six hours, with but one intermission of half an hour.

OBJECT OF THE SCHOOL.

The Normal School was established to train teachers for the Public Schools of our City and Commonwealth, and not to give an extended course of instruction to all the pupils of the Female Grammar Schools.

Each pupil, on entering the school, is required to sign a pledge, that, it is her intention to become a teacher in one of the Public Schools of the State of Pennsylvania. This is frequently lost sight of, and many present themselves at every examination of candidates for admission, who do not design to enter the school, even if they should successfully pass the examination; and others enter the school without the intention of ultimately becoming teachers, although pledging themselves to that effect. This appears to be encouraged by the teachers of the Grammar Schools, by placing on their certificates, the names of those who, they know, do not intend to enter the school, nor ever to become teachers. Successful candidates have sometimes asked the question, whether their names would be published as admitted, if they did not sign the pledge, and finding they would not, have signed it for the purpose of swelling the number of those admitted from the school to which they belonged, and have never taken their seats as pupils. The moral effect of such a course need not be enlarged upon. At the close of each semi-annual examination, a list of those admitted into

the school is published, and no others; therefore the names of those who were candidates *only for examination*, and not for *admission*, must be excluded. It is evident from the very constitution of the Normal School, that it can never become a standard by which to judge the Grammar Schools, nor is it desirable it should be.

Our Public Schools are deservedly popular among all classes of our citizens, and a very large number of the pupils are sent to the Grammar Schools to obtain the excellent education which they afford, without the intention of using it as a means of gaining a living. Those schools, which are so located as to be patronized by the wealthier portion of the community, and rank among our best schools, may have the smallest number of those who wish to avail themselves of the advantages of the Normal School. Nothing but evil can grow out of the practice to which reference has just been made.

There is no reason why the whole first division of a Grammar School should not be sent for examination, if a single one unqualified in any of the particulars required for admission, has a right to be sent.

If there is any advantage to be derived from a general standard of comparison of the scholarship of the Grammar Schools, an examination should be instituted for that purpose, and all the Grammar Schools compelled to send a given number of their best scholars to be subjected to such a test. As the labor of conducting an examination of those who are desirous of becoming teachers, is sufficiently arduous, without adding to it unnecessarily; it is respectfully suggested to the Committee, that such restrictions should be adopted, as will effectually confine the examination to those for whose benefit the institution was founded.

TEACHERS.

During the past year, the untiring and zealous efforts of the teachers have met with their highest reward, the success of their pupils, which has been obtained without sacrificing their affectionate regard.

Although the abilities of the pupils are taxed to their utmost capacity, the earnest and methodical manner in which the instruction is imparted, lightens the labor of the student, while it presents the teacher in the light of a friend, rather than in that of a taskmaster.

The school has sustained an almost irreparable loss in the resignation of Miss Mary M. Spackman, who had charge of the department of Elocution and Literature. The natural abilities and superior culture of this lady in the branches committed to her, rendered her eminently qualified for her position; while her gentleness and amiability secured for her the affection and esteem of her pupils and coadjutors.

The vacancy thus created was filled by the election of Miss Hannah C. Mentz, a graduate of the Normal School, whose superior attainments in English literature, and excellent moral character, peculiarly fitted her for this responsible post. Scarcely had we ceased congratulating ourselves on having secured the services of Miss Mentz, when the Angel of Death cast his dark pall over all our bright hopes, by summoning her gentle and pure spirit to mingle with those of the "just made perfect." In the death of Miss Mentz, we are called to mourn the loss of one, who, by her excellent qualities and high attainments, gave promise of great efficiency and usefulness in the calling for which she seemed to be specially endowed. The place thus again vacated has been filled by the temporary appointment of Miss Susan Rice, one of the last class of graduates.

Matilda C. Barns, also a graduate of the Normal School, has subsequently been elected to fill this position.

Miss Barns, during her connection with the school as pupil,

gave evidence of peculiar ability and taste in this department. Thus far our highest expectations have been realized in her success as teacher.

The past year may be said to be the darkest in the history of our school. The last annual report contained the sad intelligence that he, who had been identified with the school from its foundation, was, by his over zeal and anxious labor for its prosperity, incapacitated for further service. The solemn duty of recording his death devolves on me. The eminent services of the deceased are recorded on almost every page of the history of our Public Schools since the year 1834, and identified with all their improvements. About this time the inadequacy of the Lancasterian system became apparent, and the first step in improvement was to give the principal a properly qualified assistant; and, soon after, the present plan was adopted. The large number of teachers now required, showed the necessity of an institution for training them specially for their most important calling. With Dr. Wright this became a leading idea, which he constantly pursued until it was realized in the establishment of the Normal School, in February, 1848. The present excellent condition of the school, and its whole past history of usefulness, show with how much wisdom all its operations were planned and executed. In this work alone, has the deceased fulfilled a proud destiny, and gone to his rest in the midst of his days, having accomplished a work that would have crowned with glory a life of "three score years and ten." As a teacher, he had no superior, nor is any eulogium above his deserts. While the Normal School stands, and continues to exert its beneficial influences on our Public Schools, no other monument is needed to perpetuate the name, and keep sacred the memory of Dr. A. T. W. Wright.

Respectfully submitted,

P. A. CREGAR,
Principal.
